EXPERIENCE

JOBS FOR THE FUTURE

Oakland, CA, USA

Senior Manager

Apr. 2024 - Present

Developing and leading impactful green economy and resilient workforce projects. *Data science, research, and leadership.*

- Lead analyst of occupational segregation and job quality for tool guiding US employers' equitable green workforce strategies.
- Lead analyst of US job displacement from AI, identifying and forecasting skills trends and creating interactive data dashboard.
- Project lead of a key JFF initiative aimed at external implementation by large private sector firms.
- External speaking engagements on green workforce transformation tool (see below) to foster US local leader uptake.

Program Manager, Inclusive Regional Economic Development

Jan. 2022 - Apr. 2024

Developing novel development and green economy insights. *Data analytics, research, and program management.*

- Developed a data dashboard of workforce green transformation readiness central to high-profile initiative. Prominently featured in press release, gaining significant national visibility. Managed external partner relationships and intern.
- Guided Verizon's training initiative for 500,000 under-represented individuals by evaluating sectoral trends and selecting most promising occupations. Presented findings to funders, managed team of 3. Secured \$123,000 for project expansion.
- Co-led internal effort to improve inclusion in project work, scaling initiative across entire organization.
- Led JFF to sign "Call for Action" of global collaborative, elevating our work internationally to the G20, G7.

OFCE (French Economic Observatory, Sciences Po)

Paris, France

Research Assistant

May 2021 - Jan. 2022

- Evaluated fiscal policy in novel way to better identify its distributional impacts from multi-lingual national Budgets.

PROJECTS

New Economic Development (NED) Dashboard

Developed a public data tool assessing local economic development and quality of life to better inform local leaders.

- Built a novel framework integrating frontier research and community-based organisations' insights.
- Collected, analysed, and interpreted complex socio-economic data.
- Designed and implemented user-friendly public website with interactive data visualisations.

Impact: The NED Dashboard serves as a powerful tool for assessing economic prosperity and well-being in the US. Its user-friendly interface enables informed decision-making and supports strategies that promote equitable, resilient development at the local level (*see: <https://ned-dashboard.onrender.com>*).
